BRAND STORY

More than Twenty-five inspirational years, over 250 employees, 5 quarries, 6 factories, and an unwavering intention to provide value to a global customer base has given us something to be really proud of – the trust of our clients.

Our stones have beautified number of projects in residential, commercial and landscaping in almost every big country.

From the United States and Canada to across the Atlantic in the UK, Ireland, France, Germany, Poland and more of Europe to somewhere as far as Australia – our range is popular for its impeccable quality and a fair price.

The reason for our satisfying prices is that, at SKYZ, there is no middleman which means low overheads. We have the quarries, and the manufacturing units, and the exporting skills all at one place.

We have been ranked as a star export house by the Indian government and are a trusted supplier of marble and granite to Vietnam, Turkey, Russia, Europe and Middle East. We have India's largest natural sandstone factory in Rajasthan and an experienced workforce that is committed to cater to our clients and partners in over 20 countries. Our employees are a top-priority. Their hard work is the reason for every accolade at SKYZ so we have put special efforts on creating an infrastructure and an ethical environment that helps them feel safe and cared for.
